What: *It Takes Guts to be Healthy*

Your 1-hour guide to the natural care and maintenance of the digestive system. Learn how important your gut is to your immune system, and how to keep it healthy. What are the alternatives to drugs for reflux, gas, bloating, ulcers, constipation, Irritable Bowel Syndrome? Do you detox, or colon cleanse?

Wow!: All day on Talk Days - take 10% off all nutritional supplements, and 10% off all nutritional programs when you start on this day

September 17th topic: "Stop the Pain". With all the news about the devastating side effects of pain relievers, it's important to know about safe and effective natural alternatives that also promote healing.

2) Syndicated TV Program - *Get Healthy with Dr. Rob*

Get Healthy with Dr. Rob is the name of the syndicated television program that Dr. Silverman has been doing. These programs aim to inform and educate the general public about some of the most up-to-date findings, and some of the most talked about topics on nutrition and sports injuries. Dr. Silverman periodically invites doctors and other health-oriented leaders of their fields for interview sessions.

To Yolk Or Not to Yolk, That Is The Question

The yolk in the egg is full of many nutrients and provides a complete protein along with the whites. The yolk has both good (HDL) and bad (LDL) cholesterol. Research now shows that the preparation of the egg yolk will determine its impact on your health. If the egg yolk is scrambled and exposed to air while being cooked, the bad cholesterol is allowed to oxidize (i.e. rusting on a nail). The oxidized LDL now is suspected to cause plagues in the arteries. To enjoy the complete egg protein, keep the egg yolks intact while cooking, for example, hard boiling eggs. My equation is 4 - 6 egg whites per yolk. Enjoy!
